SKILLS

APIs & Guides

- REST
- OpenAPI/Swagger
- YAML
- JSON
- XML/SOAP
- OAuth 2.0
- Webhooks
- Postman
- Sample Code Validation
- JSON Linting Tools
- SOPs
- API & SDK Reference Guides
- Product Guides
- Playbooks
- RFPs

Docs-as-Code & Content Management

- Markdown
- Git/GitHub
- Bitbucket
- Docusaurus
- Hugo
- HedgeDoc & Typora (Markdown)
- Confluence
- Visual Studio Code
- Readme
- Jupyter Notebook
- Lucidchart
- Visio
- Snagit
- RoboHelp
- Adobe Experience Manager (AEM) with DITA
- Figma (UX)
- HTML
- CSS

Gen AI & AI/ML

- Gen-AI Assisted Authoring & AI-Agentive Workflows
- Machine Learning
- Prompt Engineering
- Embeddings

*Accomplished Principal API Technical Writer with over 10 years of experience delivering developer-centric documentation for FinTech payment platforms. *Expert in REST API reference documentation, SDKs, OpenAPI/Swagger specifications, and Docs-as-Code methodologies to support developer portals. *Adept at translating complex technical concepts into clear, structured, production-ready documentation that enhances developer experience (DX). *Proven collaborator with engineering, product, UX, and go-to-market teams, delivering sprint-aligned documentation that accelerates onboarding and integration. *Expanding expertise in AI-driven workflows, Generative AI, and intelligent automation, complemented by the ability to master new technologies and deliver high-impact technical documentation quickly.

PROFESSIONAL EXPERIENCE

DISCOVER FINANCIAL SERVICES (CAPITAL ONE) REMOTE Principal API Technical Writer

REMOTE • Nov 2025 - Present

Led API documentation strategy for the Discover Network B2B developer portal, enabling seamless external partner integrations for payment processing products.

- Transformed OpenAPI (Swagger/YAML) specifications into comprehensive, developer-friendly API references, including methods, error codes, API plans, scopes, objects, fields, and sample requests/responses for all endpoints.
- Designed reusable documentation templates aligned with fintech standards and OpenAPI governance, informed by competitive industry analysis and developer experience (DX) best practices.
- Developed documentation workflows in Preview Builder, utilizing JSON schemas, Markdown, and HTML to render and publish API documentation on the portal.
- Applied GenAI-assisted tools to enhance technical research, content validation, and documentation quality.
- Directed and performed the redesign of the developer portal guide for Going Live with Discover, consolidating and reorganizing sandbox and onboarding content (registration, certification, encryption) to optimize the developer experience.
- Proposed and implemented improvements to overall API portal documentation design and format, reducing ambiguity and supporting dependency management.
- Collaborated cross-functionally with engineers, UX, and product owners to design end-to-end sandbox onboarding and API integration documentation for developers.

EXPERIAN REMOTE Senior API Technical Writer

REMOTE • Jun 2025 - Sep 2025

Produced reference documentation for consumer credit and financial data APIs, supporting developer onboarding and integration within the developer portal.

NLP
Chat GPT
Claude
LangChain
MCP
Gemini
Python Libraries
Colab
LLMs
RAG
AI Content Orchestration
Familiarity with AI/LLM developer tools and agent-based frameworks

DevOps & Project Mgmt

Jira
Scrum
Kanban
Azure DevOps
AWS
Apigee
ServiceNow
SharePoint

Programming Languages

JavaScript
TypeScript
Python
Kotlin
Swift
Bash CLI

ACHIEVEMENTS

8+ years designing and delivering developer-first API documentation. Proficient in YAML/JSON with working knowledge of Python. Deep expertise in OpenAPI/Swagger for REST API documentation. Strong experience in Agile environments delivering sprint-aligned documentation.

- 2017 - Present

Built practical skills in low-code AI development, prompt engineering, LLMs, agentic AI workflows, and AI-assisted development through audited coursework in the Post-Graduate Program in Generative AI for Business Applications program at the McCombs School of Business, The University of Texas at Austin.

- 2026

- Collaborated with product owners and developers to create reference documentation for 10+ consumer credit and financial data APIs within the developer portal.
- Validated end-to-end API workflows using OAuth 2.0 client credentials flows in sandbox environments, improving accuracy of onboarding and integration guidance.
- Delivered sprint-aligned documentation through Jira workflows and ReadMe publishing, ensuring consistency with release cycles.
- Increased documentation efficiency by 40% by implementing AI-assisted code validation and GenAI-driven drafting workflows.

MARYLAND DEPT. OF HEALTH REMOTE

Senior RFP Technical Writer

REMOTE • Dec 2023 - Jun 2024

Authored RFPs and Statements of Work for statewide Medicaid initiatives, ensuring timely and compliant vendor selection.

- Authored RFPs and Statements of Work supporting statewide Medicaid initiatives and competitive vendor selection to meet 100 percent deadlines.
- Led meetings with stakeholders to review RFPs and ensured cross-functional legal and compliance alignment.

IGT — REMOTE

Sr. API Technical Writer

Remote • Mar 2023 - May 2023

Developed and maintained API documentation for a state-regulated iLottery platform, supporting partner integrations and regulatory compliance.

- Created 500+ pages of Swagger/OpenAPI documentation for a state-regulated iLottery platform, enabling partner integrations across multiple jurisdictions.
- Audited 100+ legacy documentation artifacts, identifying and closing critical API reference gaps to improve implementation accuracy and reduce integration errors.
- Designed reusable, corporate-branded API documentation templates, enabling scalable and consistent publishing across product lines.

NETSPEND — REMOTE

Sr. API Technical Writer

Remote • Jun 2022 - Dec 2022

Delivered API documentation for prepaid debit card platforms and new API releases, supporting partner integrations and platform reliability.

- Delivered 100+ pages of Swagger/OpenAPI documentation supporting partner integrations for prepaid debit card platforms and new API releases.
- Developed API documentation for webhooks and SOAP/XML services, defining endpoint structures, request/response models, and error handling to improve integration reliability.
- Managed sprint-aligned documentation tasks in Jira, ensuring on-time delivery aligned with release cycles.
- Maintained documentation library using DITA in Adobe Experience Manager (AEM).

T-MOBILE — REMOTE

Sr. API Technical Writer

Remote • Nov 2021 - Jun 2022

Published API documentation for telecom service integrations and internal platform infrastructure, supporting agile release cycles.

- Published API documentation in Apigee DevCenter for telecom service integrations and internal platform infrastructure, including gateways, load balancing, and Kubernetes-based systems.

- Executed sprint-aligned documentation across 10+ Jira stories per sprint, proactively resolving cross-functional blockers to maintain release timelines and documentation quality.

MASTERCARD — REMOTE

Sr. API Technical Writer

Remote • Aug 2021 - Nov 2021

Owned and maintained API reference documentation for digital payments products in the Mastercard Developer Portal.

- Owned and maintained API reference documentation for 5+ digital payments products in the Mastercard Developer Portal, including eCommerce, Click to Pay, and Secure Remote Commerce (SRC).
- Generated static documentation sites using Hugo to support review, validation, and iterative updates to API guides.
- Partnered cross-functionally to gather requirements and manage documentation workflows, creating and managing pull requests in Azure DevOps to support review and approval processes.

IDEMIA — REMOTE

Sr. API Technical Writer

Remote • Sep 2020 - Jul 2021

Maintained and enhanced developer portal reference guides for APIs supporting mobile identity verification and biometric access control.

- Maintained and enhanced developer portal reference guides for 20+ APIs supporting mobile identity verification and biometric access control in regulated environments.
- Provided SDK integration documentation for Android (Kotlin) and iOS (Swift), enabling streamlined cross-platform implementation.
- Partnered with distributed engineering teams and product owners to gather and document API requirements.
- Directed Docs-as-Code workflows across GitHub and Bitbucket, aligning documentation with release cycles to ensure version accuracy and deployment consistency.

WELLS FARGO — REMOTE

Sr. Technical Writer / Business Analyst

Remote • Apr 2020 - Sep 2020

Led requirements gathering and documentation for FDIC Rule 370 regulatory compliance across banking products and business lines.

- Led cross-functional requirements gathering to document FDIC Rule 370 regulatory requirements across banking products and lines of business (LOBs).
- Analyzed business requirements to ensure LOBs adherence with FDIC Rule 370 objectives.

BANK OF AMERICA — REMOTE

Sr. Technical Writer / Business Analyst

Remote • May 2019 - Mar 2020

Developed internal AWS cloud portal documentation to support secure, enterprise-wide cloud adoption and self-service infrastructure access.

- Formulated 200+ pages of internal AWS cloud portal documentation enabling secure, enterprise-wide cloud adoption and self-service infrastructure access.

KAISER PERMANENTE — REMOTE

Sr. Technical Writer / Business Analyst

Remote • Jul 2018 - Jul 2019

Designed and launched a Confluence knowledge base to centralize enterprise performance frameworks and improve documentation retrieval.

- Designed and launched a Confluence knowledge base with 70+ interlinked pages, centralizing 20+ enterprise performance frameworks and reducing documentation retrieval time.
- Collaborated with data analysts to gather metrics requirements.

EQUIFAX — ALPHARETTA, GA

Sr. API Technical Writer

Alpharetta, GA • Mar 2018 - Jun 2018

Produced API documentation for the Apigee developer portal, supporting developer onboarding and integration.

- Distributed 50+ pages of API documentation for the Apigee developer portal, translating Swagger/OpenAPI specifications into developer-ready integration content.
- Designed structured onboarding tutorials covering developer registration, API key provisioning, and OAuth authentication to accelerate partner implementation.
- Incorporated developer feedback to refine API integration documentation, improving adoption and reducing onboarding friction.

AMERICAN EXPRESS — PHOENIX, AZ

Sr. API Technical Writer

Phoenix, AZ • Mar 2017 - Mar 2018

Revised API developer portal documentation for payment workflows, ensuring alignment with OpenAPI specifications and agile processes.

- Revised API developer portal documentation using YAML-based OpenAPI specifications for critical payment workflows, including Spend Control Vault, ATM Locator, Pay for Points, V-Payment, and OAuth 2.0 authentication.
- Supplied sprint-aligned documentation by tracking tasks in Kanban and partnering with engineering through daily Scrum ceremonies to discuss status and resolve blockers.

PROJECTS

Building skills in creating AI agents with Claude. Using prompt engineering for agent generation while developing expertise in agentic AI workflows and no-code automation.

• 2026 - Present

- SPECIAL INTERESTS: Gen AI, Creative Writing (Novel), Feral Cat Rescue

EDUCATION

MFA in Writing

• LINDENWOOD UNIVERSITY

Oct 2020 - Aug 2022 • 4.0 GPA

BS in Computer Science, BA in English

• UNIVERSITY OF ARKANSAS AT LITTLE ROCK

2026 - 2026 •

Generative AI for Business Applications (Audited), McCombs School of Business, University of Texas at Austin

No Code and Agentic AI Certificate Program, MIT •

2026 •
